

Literacy

To begin Grasshopper class will be looking at traditional tales from Asia and how to write our own story based on these. We will be researching information texts to write our own informative book about plants and animals in the Asian jungle.

Science

To combine with our Asian jungle theme, this term we are focusing on plants. We will be growing our own tasty cucumber plants and monitoring their progress as they grow. The children will look at the parts of a plant and the best

PSHE

The children will be learning about environmental problems and how to look after our planet. We will also be looking at

Computing

In computing Grasshoppers will be safely using search technologies and recognise the

Numeracy

The children are following the 2014 Numeracy National

Art/DT

During our Asia topic the children will be developing their clay skills, creating our own Medindi hand pots! We will focus on sculpting techniques, adding detail and texture and learning

RE

We will be looking at 2 major world religions this term, Christianity and Hinduism to fit in with our 2 topics of

Geography

We will be looking carefully at geographical features both at home and the Asian subcontinent this term. Each week we will learn about a different Asian country, including India, Japan, Nepal and Indonesia focusing on recognising human and physical features and understanding the different pressures on urban and rural

PE

This term we will be focusing on games and athletics. We will be practising hitting, rolling, catching, running and kicking techniques and developing tactics
