

PSHE - Families

We will be learning about all kinds of families, looking at what makes a family, different family structures and respecting the differences between the way our families look, who our family members are (including non-

Geography - Overview of Americas and Europe

Children will be developing their map reading skills further, by identifying countries in both North and South America and Europe. They will learn to interpret the key and/ or symbols on a range of maps to locate, identify capital cities and learn about main physical features; including rivers, mountains and rainforests. We will then look at how land use is changing over time and how deforestation in the Rainforest is affecting our future.

DT/Art - Sculptures

As part of our America topic children will be learning about North American Tribes and the history and meaning of Totem Poles.

Literacy

Narrative - Children will be reading stories set in imaginary worlds and looking at how presentation, language and phrases used for effect by the author to capture the readers' interest and imagination. We will then write our own stories set in imaginary worlds.

Gloworms' Summer

2018

Maths

We will continue to secure our knowledge of calculation methods and times tables.

We will be focusing on applying the children's knowledge to solve

Languages - Spanish

Children will reinforce their learning on greeting phrases, counting, months and days of the week and will start to

Music - Transcribing

Children will learn to recognise different musical notes, their

Science - Animals and Humans.

Identify that animals and humans need different types of nutrition, classify living things, learn how changing environments affect living things. Consider digestive systems, differences in diets, linking producers, predators and prey in food chains and webs.

States of Matter

After half term we will be learning about states of matter, the relationship between solids

P.E - With CSF and
