The health, safety and well-being of all staff and pupils is of utmost importance to us. This risk assessment template has been provided to support educational settings to ensure they are acting in line with the COVID-19 – Compliance code for all educational settings.

This template does not follow the traditional format for a risk assessment. It only covers the control measures needed to manage the risks presented by COVID-19 as low as is possible, in line with community risk levels, therefore the need for scoring or prioritising control implementation is negated. The measures relate to all the persons who may be affected at your setting staff, pupils and visitors. Settings are required to review the identified control measures and describe how they are implementing these in the notes box. Where a control measure does not apply to your setting you can delete the line or enter NA. You may need to add additional control measures specific to your setting, additional space is provided at the end of the form for this purpose.

The controls identified below are designed to manage the risks relating to:

- Positive cases bringing COVID-19 into the setting
- Exposure to numerous people while in the setting increasing transmission risk
- Direct person to person transmission
- Surface transmission including through the use of equipment
- Staff and pupil health increasing the risk of transmission (separate risk assessments are available for staff at increased risk)
- Staff and pupil mental health and well-being due to anxiety or increased pressure
- Educational visits increasing the risk of contact with others and therefore transmission
- Extra curricular activities increasing the risk of transmission with others and therefore transmission
- Lack of awareness of the control measures and requirements (the need for information, instruction and training)

Please note: all COVID-19 guidance is available through HR InfoSpace and Norfolk Schools

The risk assessment should be reviewed prior to any stage of extension of operation e.g. increasing pupil numbers, extending curriculum activities, opening up facilities or planning events.
