

Remote Education Support

Should your child become unable to attend school due to illness, but are able to take part in educational activities, please use this remote education provision. The aim of this document is to provide our children with quality learning resources whilst out of school.

Your child's class teacher will provide more specific learning should your child be off for a length of time yet are able to take part in education from home. Please contact the school by telephone to request this should it not be provided automatically.

It is expected that the work completed whilst at home is returned to school so that this can be used for assessment purposes. Should you require an exercise book, please contact the school office. Please remember to ensure work is set out clearly with an underlined title and date for each piece of work.

Should you have any queries, please do not hesitate to contact our office.

The following will provide a range of resources that you can access for free. Please refer to your child's class newsletter (sent out at the start of each term) to find out what units are being taught this term so that you can choose the appropriate content.

Oak Academy:

There are a range of excellent lessons all taught by qualified teachers available through Oak Academy.

Simply click on the green 'Lessons' button at the top of the website, then select 'Subjects' and select the appropriate area for your child.

Link here: <https://www.thenational.academy/>

Purple Mash:

Each child has their own access to Purple Mash (our online learning platform). If you do not have their log in, please contact the school office who will be able to provide you with it. Through Purple Mash, your child can communicate with their class teacher. There is also a wide range of learning activities, resources, games and learning information available.

Link here: <https://www.purplemash.com/sch/buxton-nr10>

Reading Eggs / Maths Seeds:

As a school, we subscribe to this excellent online learning tool which is aimed at basic reading and maths skills for ages 3-9. We do not have enough users for every child in school, but they do have a 30 day free trial available to all so you may wish to sign up for this.

Link here: <https://mathseeds.co.uk> <https://readingeggs.co.uk/>

Reading:

One of the most valuable activities you can do from home is reading. This is integral to your child's development. Should you be unable to get some reading material, please contact the school who will be more than happy to provide some reading material for your child to pick up. If you are unable to do this, there are many books available to listen to online. One YouTube channel that reads a wide variety of books is <https://www.youtube.com/c/Dob31/null>

Phonics:

Should your child be learning phonics as part of their daily/weekly class routine, it is important to practise this at home. If you are unsure as to which phase / units are being taught currently, please contact your child's class teacher who will be able to provide you with that information.

The following websites have a great range of resources and learning tools to help your child learn Phonics from home:

<https://www.phonicsplay.co.uk/resources/>

<https://www.teachyourmonster.org/>

Maths:

Here are some useful maths website links which have a wide range of games for your children to have fun with and learn at the same time:

<https://www.topmarks.co.uk/>

<https://www.mathplayground.com/>

<https://www.ictgames.com/>

All children have an account with TTRockStars which is an online game platform to learn times tables. All children should have their log in, if not, please contact the office who will let you know their log in.

[Times Tables Rock Stars: Play \(ttrockstars.com\)](https://www.ttrockstars.com/)

Sport:

The following website provides a range of exercises should you find yourself stuck indoors.

Link here: www.netflexkids.com

Remember that your learning from home is not limited to what is in this list. Learning from the world around us is also very important; using practical skills, physical activities, cooking, making, art, learning about nature etc. can be invaluable in your child's development and mental health and wellbeing.

Should you need any support at all, as always, please do not hesitate to contact the school for advice and support:
